January 2018

AVCSuccess **PEAK** PERFORMANCE PROGRAM for VETERINARIANS

Would You Like to Achieve Peak Performance at Your Practice This Year?

You are invited to participate in the **DIY Peak Performance Program (PPP)** offered by AVCSuccess, for use with your Veterinary Software. Attend each **FREE** monthly webinar in 2018 to gain the full benefit of the program: a 9% increase in your annual revenue.

Each month will cover a different module in the program, so you will want to attend as many webinars as you can. For this month's PPP Module you will learn the best practices for conducting a comprehensive **Laboratory Review**.

Why be ordinary when you can exceed industry standards? Register for the March webinar and get started on reaching your business and financial goals for 2018!

AVCSuccess DIY Peak Performance Program - Module 3

Join us for Part 3 of the monthly Design-It-Yourself Peak Performance Program on the topic of "**Achieving Peak Performance with a Comprehensive Laboratory Review.**"

Read what one Client has to say ...

“AVCSuccess has been a wonderful consulting company with which to work. The exploratory analysis was painless to have performed and was a great eye opener. The ongoing consultations have thus far been very helpful in getting our clinic up to date with changes that need to be made to improve our ability to deliver a great level of service and know that the practice is profitable. The goal setting is wonderful motivation for the entire health care team. I can recommend AVCSuccess to any veterinary facility that is looking to improve themselves and their operation. Thanks.”
